JUXTAFIT LOWER LEG GARMENT MEASUREMENT FORM

SIZING CHART

Patient should be standing when taking measurements. Limbs should be at their smallest; limb size should be maintained from time of measurements to ensure a proper fit of garment. When on borderline between sizes, select a smaller size if significant edema is present and reduction is anticipated; if edema is minimal, select larger size. After measuring the smallest dimension of the ankle and the largest dimension of the calf, if any of the measurements do not fall within one of these size ranges, call (800) 247-2243. Length measurement is for Juxta-Fit™ only, actual legging lengths are 28cm (Short) and 36cm (Long); Ready-Fit™ and Classic-Flex™ have one adjustable length. **Note 1in = 2.54cm**
